Tony has done a great job with the wardrobe and exceeded our expectations, it would not go too far to say we are thrilled with the result. After twenty years of the kids knocking the place to pieces we have had a lot of work done around the house this year, but this is the one that has finally provided some real satisfaction. The design is very thoughtful, the standard of workmanship highly skilled, and the attention to detail is something that none of the other contractors seemed to consider. Tony even offered to change a drawer fitting for which we changed our minds over after installation.

### Wardrobe, Flooring and Utility.

We hired Tony near the end of our house renovation to do various carpentry works from custom built in wardrobe, boiler cupboard, utility unit, flooring fitting and much more. I wish I met Tony sooner! Tony and his team (must mention Danny!) did an exceptional job - excellent workmanship and finish! Tony is a great guy - polite, reliable and everything you'd wish for in a tradesman! The quotes were reasonable and clearly outlined the cost for materials and labour. He kept us informed on the progress of works. I would definitely recommend Tony's Fitters for all your carpentry needs!

I would strongly recommend Tony's Fitters. We weren't sure about using someone new as we didn't know if the end result would be what we were after, but the quality of their work is great, they stayed late on a Friday evening to finish the job, tidied up afterwards and were really flexible about when to come back to finish the painting. Tony and his team were excellent. We needed six new interior doors fitted and they got done in a day, not an easy feat as our door frames are far from the best.
